I'm a first-year student at the University of Brighton currently studying Digital Media Development. In the past five years, along with my passion for web design, I have embarked on a path to become a professional chef thanks to the achievement of the level 2 NVQ diploma in Professional Cookery.

In Italy, I had previous experience as a Graphic Designer working in the event sector. As slide manager, my duty was working beside a copywriter to produce an effective presentation in support of a speech.

I am always improving my skills, working on both website and software projects. I maintain them through GitHub, and expand my skills through research and Lynda.com.
